

Fraport Ground Services Consulting

*World-Class Competence
Customized Solutions
Consistent Performance*

Fraport Ground Services at a glance

Fraport AG has successfully operated the international Frankfurt Airport for many decades. Based on the expertise and experience acquired from managing this global hub over the years, it also offers first-rate services at many other locations around the globe.

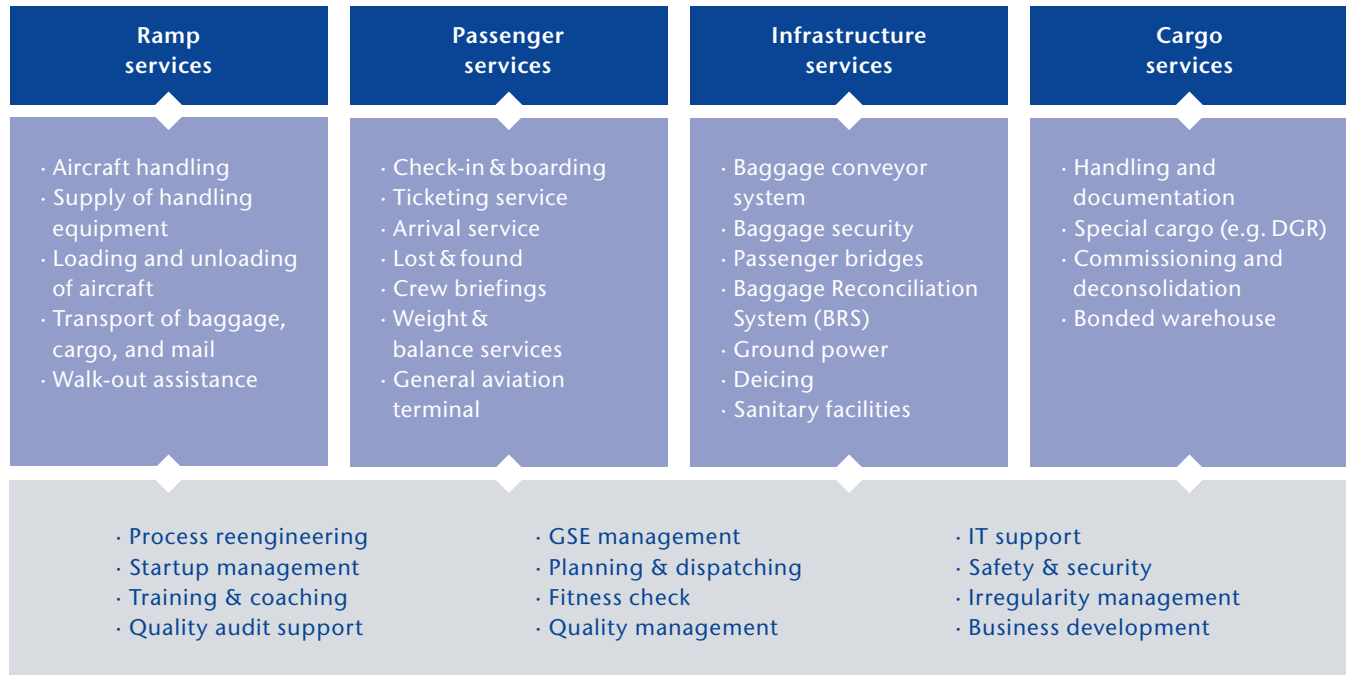

Fraport Ground Services is one of the world's leading providers of ground handling services & solutions in compliance with Annex 810 of the IATA Airport Handling Manual. We offer a full range of services that cover the entire process chain and meet the requirements of nearly 100 airline customers at FRA. Our over sixty years of experience enable us to deliver top-quality and tailored solutions.

Close cooperation of everyone involved makes Frankfurt one of the world's fastest and most efficient major airports, with an excellent international reputation.

Professional consulting on ground handling

Our activities

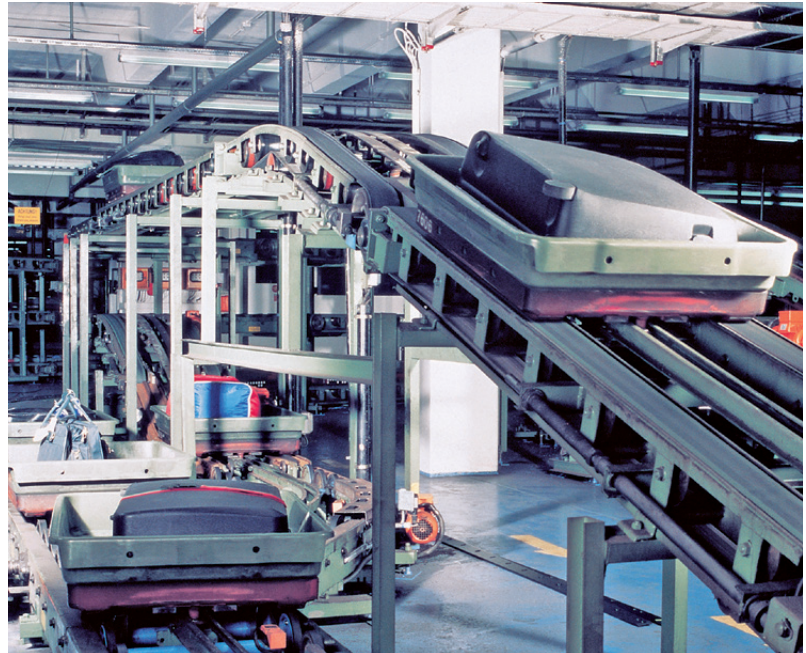

Professional consulting on ground handling

Your benefits

Our extensive experience with ground handling operations and their quality, safety & security and financial aspects has given us a thorough understanding and knowledge of the overall process chain, all involved processes and key interfaces.

As a result, we are in a position to identify operational weaknesses and future organizational challenges – essential prerequisites for implementing and ensuring stable and sustainable ground handling processes.

We are convinced that the most important contributors to success are cultural awareness and a process of continual improvement.
